

WORLD ASSEMBLY

of local and regional
governments

UN High-level
Meeting on the
implementation of
the New Urban
Agenda - Quito

New York, 27 April 2022
15:00-18:00 EST
UN Headquarters

#Listen2cities

IMPLEMENTING
THE NEW
URBAN AGENDA

On the occasion of the High-level Meeting on the review and follow up of the New Urban Agenda taking place in April in New York, the organized constituency of local and regional governments gathered within the Global Taskforce of Local and Regional Governments (GTF), facilitated by United Cities and Local Governments (UCLG) will be convening the World Assembly of Local and Regional Governments.

The World Assembly has been officially recognized by the United Nations General Assembly in recognition of the role local and regional governments and communities play in sustainable urban development and in the implementation of the New Urban Agenda. The World Assembly is explicitly acknowledged within the Quito Outcome document (paragraph 169) as a review and follow-up mechanism of the New Urban Agenda. Specifically, paragraph 169 calls for continued collaboration with the World Assembly in the follow-up and review of the New Urban Agenda, stating: “We note the importance of continuing to engage in the follow-up and review of the New Urban Agenda with sub-national and local governments associations represented at the World Assembly of Local and Regional Governments”.

The convening of the World Assembly of Local and Regional Governments will focus on demonstrating the need to deepen the debate on the recognition of local and regional governments as formal actors and contribute to build a long-lasting partnership to localize the universal development agendas. Towards the United Nations High-Level Meeting on the Review of Implementation of the New Urban Agenda, the local and regional government constituency is ready to demonstrate the interconnection between the New Urban Agenda and the Sustainable Development Goals (SDGs) and the PGA's 5 Rays of Hope.

In the current overlapping crises we are living through, it is critical to leverage linkages between the New Urban Agenda, service delivery and coordination among spheres of government to accelerate its implementation. The World Assembly will be structured around three key axes: 1) local public service provision and the right to the city, 2) equality, finance, and green deals and 3) multilevel governance, intermediary cities and renewed planning models and will include participation not only from local and regional governments but also from representatives of national governments and stakeholder

15:00

Opening

- **Abdulla Shahid**, President of the UN General Assembly
- **Collen Vixen Kelapile**, ECOSOC President
- **Maimunah Mohd Sharif**, UN-Habitat Executive Director
