A SHORT GUIDE TO THE MAGICAL CITY FOR THE ACTIVE TRAVELLER

Sightseeing, shopping, eating out and more.

MAGICAL KENYA IS SAFE AND READY TO RECEIVE VISITORS

As part of the Kenya's response to the COVID-19 pandemic which has devastated Tourism in Kenya and globally, the ministry of Tourism and Wildlife in partnership with key stakeholders developed the Magical Kenya Tourism and Hospitality protocols. The protocols have played a key role in the safe reopening of tourism establishments in the country. They spell out comprehensive measures to be followed by all who work in the sector as well as by tourists guarantee the safety of visitors in the destination.

These protocols will be observed by every one along the tourism chain including the tourism destination. So far, hospitality establishments and tourism attractions around the country including hotels, bars, restaurants, museums, game parks and attractions have adhered to the guidelines and put in place all the required measures. Visitors and sector workers are required to also adhere to these protocols in order to protect themselves.

In recognition of the destination's adoption of the global health and hygiene standardised protocols dubbed "Safe Travels, Kenya was awarded the World Travel and Tourism Council (WTTC) Safe Travel Stamp in July.

The transport sector is crucial for the revival and thriving of tourism and the economy. Therefore, apart from the hospitality protocols, the Ministry of Transport released protocols to guide the reopening of the transport and aviation sub-sectors.

This has guided the resumption of international and domestic flights since air travel remains a key component in the revival of tourism in the country and globally.

These protocols have so far been instrumental in enabling the safe resumption of passenger travel. Adequate measures have already been put in place at all airports in the country and airport authorities work round the clock to ensure they are adhered to. For travellers to remain safe from COVID-19 in the destination, it is important that they adhere to the protocols, allowing tourism activities to continue safely for all.

All sectors related to the tourism industry are well equipped and prepared to receive tourists, guided by the guidelines developed.

TIPS & GUIDES

DRESS CODE

The dress code in Nairobi is multicultural and relatively relaxed. In rural areas avoid transparent and revealing clothing.

GREETINGS

Most social interactions begin with a greeting. It is considered rude and disrespectful not to greet someone with a shake of the hand. Telephone conversations will often start with a polite greeting and an inquiry into one's health.

PHOTOGRAPHY

Photography of the State House, government institutions & military installations is prohibited. It is polite to always ask before taking pictures of local people.

SAFETY

Personal safety begins with you, and like with any other big city in the world, one is encouraged to avoid walking alone in dark alleys especially in the night. Keep to well lit areas and avoid crowded places.

VISA

A visa is required prior to entry into Kenya and is readily obtained at the airport upon arrival. You may also obtain one from the Kenyan Embassies and High Commission offices abroad before departure. A single entry visa as always is valid for three months after the date of issue.

HEALTH

It's advisable to travel with a

small first aid kit that includes band-aids, a thermometer, sun screen, oral re-hydration sachets, anti-diarrhea medication, an antiseptic, water purification tablets and more. Some of the hospitals you can visit or call when necessary include: the Nairobi Hospital, the Aga Khan Hospital, Mater Hospital, M.P. Shah Hospital, Gertrude's Children's Hospital, Karen Hospital and the Kenyatta National Hospital.

WILDLIFE

Nairobi boasts of being the only city in the world with a National Park within a city. The park has a variety of wildlife including the big cats, giraffe, buffalos, zebras, elephants and others.

FAMOUS PEOPLE OF KENYA

The first African woman Nobel Peace Prize winner – the late Prof. Wangari Maathai – who had a commitment to the environment was Kenyan.

She was also the first African woman in East and Central Africa to earn a Doctorate Degree.

David Rudisha is the current Olympic and World Record Holder in the 800 meters athletes category. Rudisha was the first person to run under 1:41.00 for the Olympics.

Tegla Loroupe was also the first woman from Africa to win the New York City Marathon, which she has won twice.

Paul Tergat, one of the most accomplished long-distance runners of all time, is from Kenya.

The first African Black Oscar winner – Lupita Nyong'o – has roots in Kenya. Her father is Kenyan.

America's first Black President – Barack Obama – has roots in Kenya. His father was Kenyan.
